# Navigating the CRAC-HCF 2020 Virtual Forum

## 01 Accessing the Live Conference Hall

- Login with your email and password

### Already received the password:

Please Login with your email and password

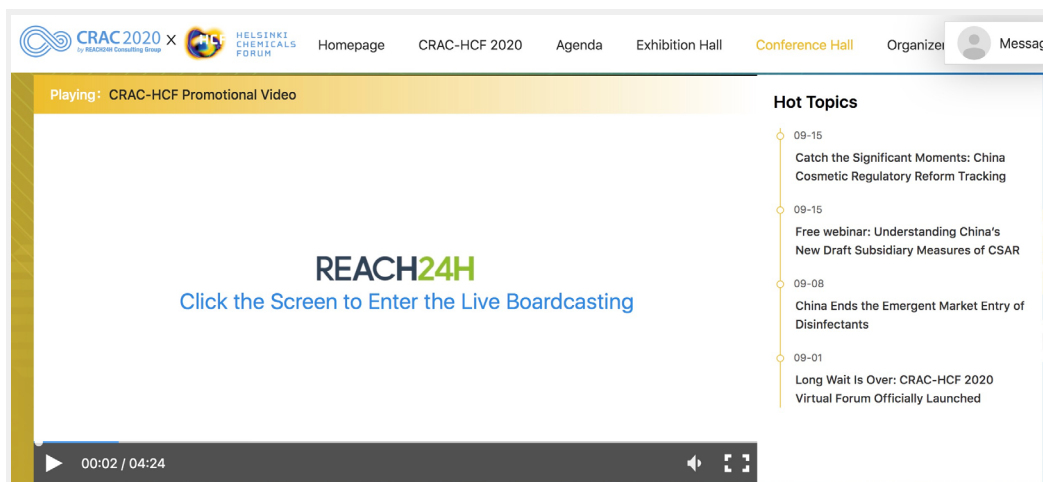

### Forgot your password?

If you forget your password, please click on "No- password login" or contact CRAC-HCF 2020 Organizing Committee

Tel: +86-571-8997 7693

Email: crac@reach24h.com

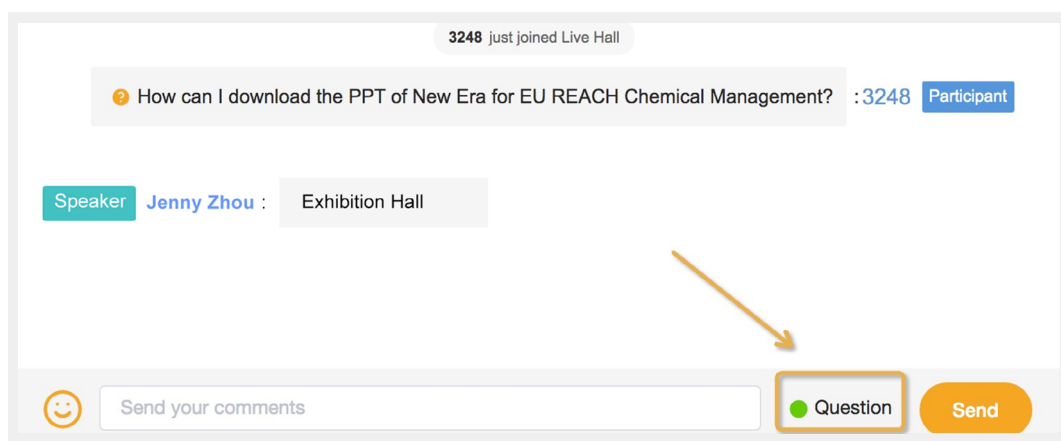

- Enter the Conference Hall- Click on the screen to enjoy the live broadcasting!

## 02 Communicating with Guest Speakers

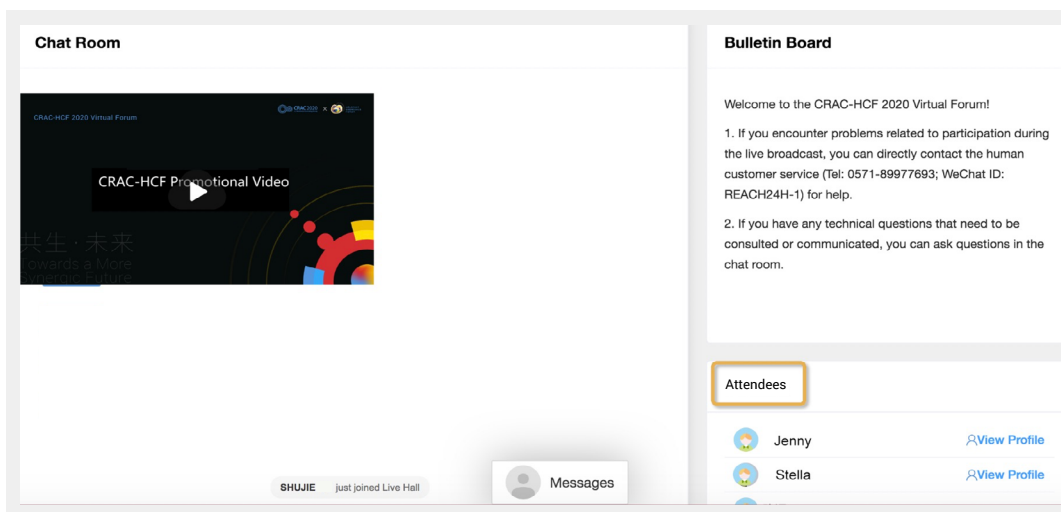

Attendees can leave their comments and questions on the Chat box. If Speakers are online at the time of the broadcasting, they may directly reply, supported by our team experts. Otherwise, the CRAC-HCF 2020 Team will collect all questions and send them to the guest speakers and our experts. Feedback may be then sent back to the attendees.

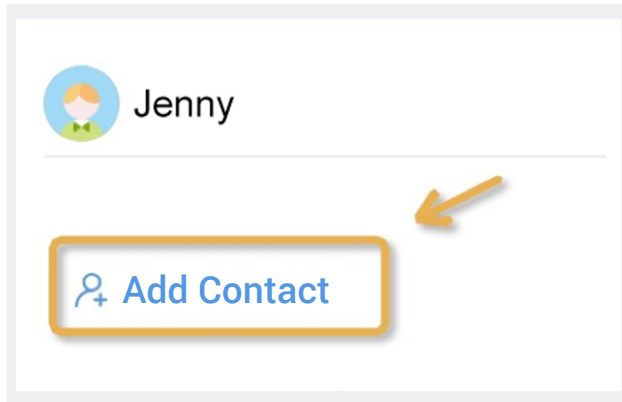

## 03 Reaching Out to Attendees

Method A:

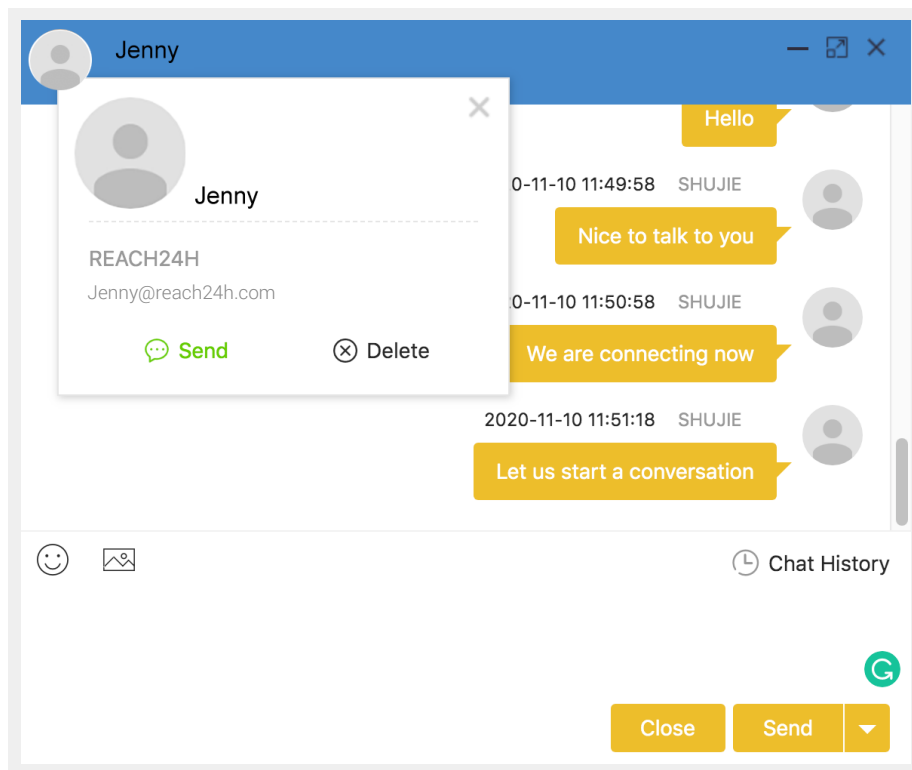

- You can search for attendees online on the right side of the Live Conference Hall. You will be able to direct message them.

- If you're interested in chatting with another attendee, click on "Share Contact"

- Add him/her to your Contacts list to access their profile

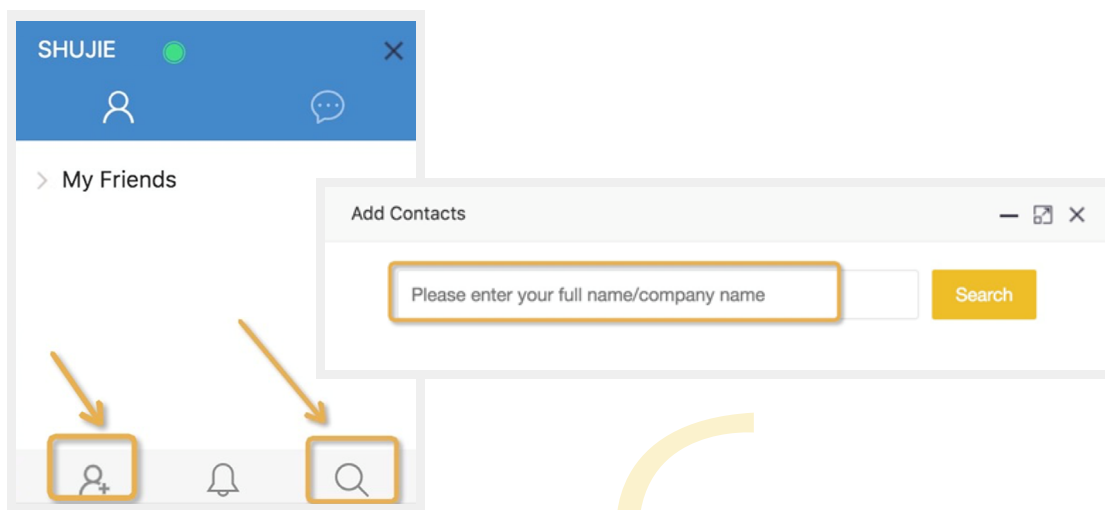

## Method B:

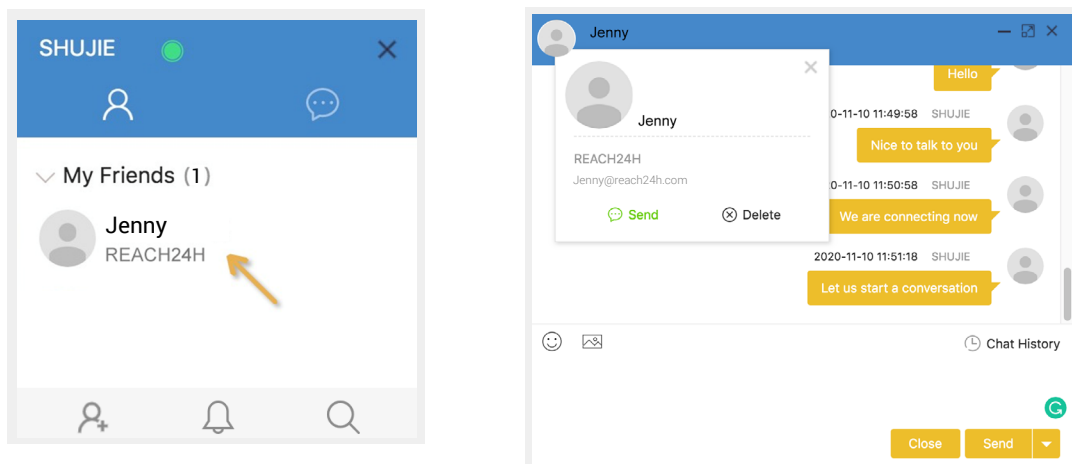

- As an alternative, you can add new contacts by clicking on “Messages” box in the lower right corner of the website.

- Click on “Add Contact”, enter full name or company name to find contacts.

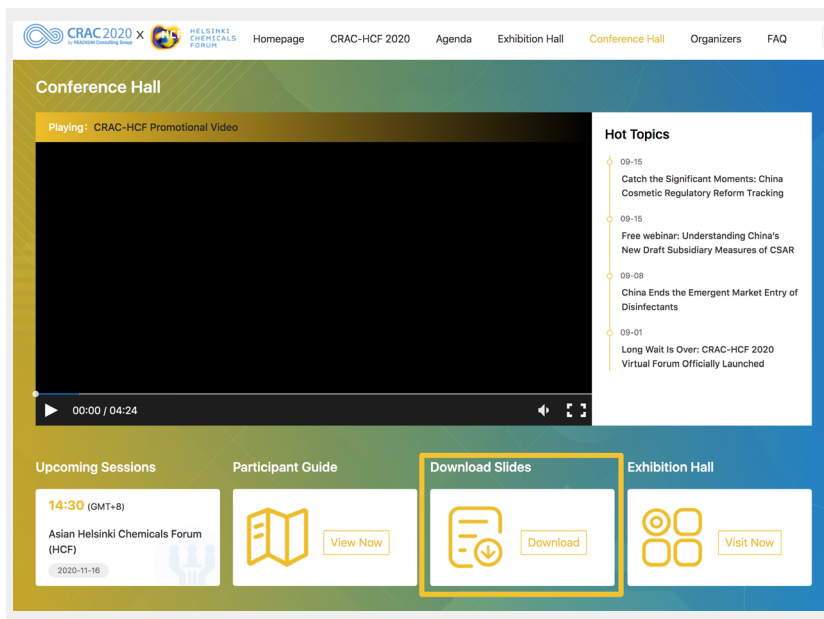

- Once the contact accepts your request, their name will show on your Contacts List

## 04 Downloading PPT slides

The organizer provides each participant with 5 download points for downloading PPT materials. Each download of a PPT will use up one point.

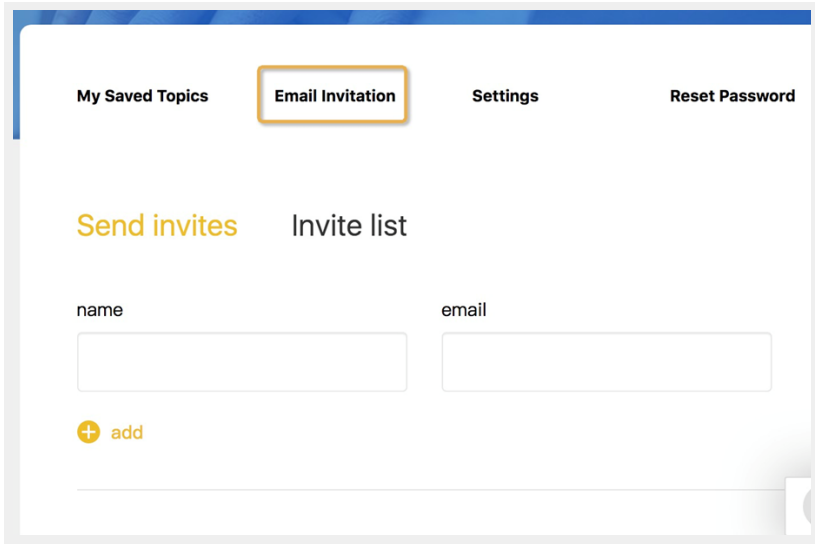

### How can we get additional download points?

1. Go to the Exhibitors Hall, visit the homepage of the exhibitor, and get 1 download point for each booth visit (repetitive visits will not provide additional points);
2. Go to the Exhibitors Hall and chat with exhibitors online to get 2 download points (repeated conversations do not provide additional points);

3. Go to the Personal Center and invite friends from your industry to join the Forum. You will get 3 download points for each successful invitation.

## 05 Other Issues

Thank you for joining the CRAC-HCF 2020 Virtual Forum, if you have any other question, please contact the Support Team.

Ms. Jenny Zhou

# Organizers

**REACH24H**

[REACH24H Consulting Group](#)

Founded in 2009, REACH24H is a Consulting Company specialized in providing one-stop global market access services to companies in the field of industrial chemicals, agrochemicals, cosmetics, food and food contact materials.

We are proud of our diverse team, from our technical experts to our international trade and market specialists across our headquarters in China, offices in the Taiwan region, South Korea, UK and the U.S., and our business representatives in Japan, UK, EU and South America. We continuously work to expand our networks to businesses, associations and government authorities across all regions to anticipate compliance needs and provide full-cycle strategic planning.

By creating a 24-hour global consulting service network and a technical expert team, REACH24H helps enterprises and high-quality products take an initiative to trade, improving their understanding of technical barriers and assisting international trade departments and businesses to move from passive to active in the global market. To date, REACH24H has helped nearly 9,000 companies worldwide overcome technical trade barriers to smoothly navigate the global market.

[Helsinki Chemicals Forum \(HCF\)](#)

The Helsinki Chemicals Forum (HCF) is an independent non-profit forum founded by the Finnish Fair Foundation and the City of Helsinki aimed at promoting chemicals safety and chemicals management globally. HCF has held annual high-level conferences in Helsinki every year since 2009, supported by European Chemicals Agency (ECHA), the European Commission (EC) and the European Chemical Industry Council (CEFIC) and a number of Finnish Government ministries. Over the years, the Helsinki Chemicals Forum has gradually evolved from debating the multiple challenges that the global chemical industry is facing to becoming the priority platform for debating how approximation of regulatory systems around the globe and multilateral cooperation can contribute to a safer and greener environment world-wide.

## Global Pesticide Registration Compliance Services

Pesticide registration is the first threshold for pesticides when setting up strategies to enter a new market. Registration has a vital impact for pesticide companies engaged in pesticide import-export trade.

In light with REACH24H overall mission, its Agrochem Division has devoted its work to making contributions to public health, environment protection and providing Agrochemical industrial companies with customized solutions to enter global markets. The Agrochem Division focuses on pesticide regulation, fertilizer registration, disinfectant regulation, QSAR, Risk Assessment, GLP test and other related compliance services.

Our services cover China, Europe, the United States, South America, Southeast Asia. With branches across Europe and the United States, the company has become qualified in accordance with European and United States regulations, which may be used to allow pesticide/disinfectant registration applicants to process and obtain necessary pesticide registration certificates.

### Our Services

# Our Sponsors

[Charles River](#)

How up to date is your regulatory knowledge? The global registration environment for industrial chemicals is becoming increasingly regulated. The key to successful registration is collaboration among a multidisciplinary team of experts, who understand these ever-changing requirements. For more than 40 years, Charles River has supported the safety testing and registration of both new and existing substances. With facilities across Europe and the USA, our comprehensive range of services can be tailored to customer needs and cover all aspects of regulatory study requirements. We specialize in the design of studies to satisfy the requirements of the various authorities in Europe, the United States and Japan.

Charles River partners benefit from a strong team of regulatory experts and experienced scientists who, as an extension of their own team, provide an integrated portfolio of studies in chemistry, ecotoxicology and environmental fate as well as endocrine disruptor screening and toxicology.

[Global Product Compliance \(GPC\)](#)

Global Product Compliance (GPC) specializes in Global Regulatory Compliance Solutions across sectors globally. Since 2008, GPC have emerged as one of the leading names among Global Regulatory Compliance Service Providers with Representation services in Europe, Asia and Middle East for respective chemical regulations. GPC is also actively contributing towards the finalization of India's chemical regulation and policy. Indian Ministry of Commerce has commissioned GPC for several studies and reports which have contributed significantly to the upcoming Indian Chemical (Management and Safety) Rules.

[Qingdao Nuocheng Chemical Safety Technology Co.Ltd](#)

Qingdao Noshing Chemical Safety Technology Co., Ltd. was approved by the Ministry of Emergency Management of the People's Republic of China and jointly funded by the Chemical Registration Center of the Ministry of Emergency Management and the China Chemical Safety Association. Our company ensures One-Stop solutions for petroleum, coal chemical industry, iron and steel smelting, port terminal industries. Our main services include:

- Chemical safety and emergency database (ChemRight),
- Dangerous chemicals compliance services (Registration & SDS report), Global Emergency Telephone Contact Number Service,
- Identification of chemical hazard and dangerous goods.

## Extend your reach.

Achieving a successful registration for your chemicals is a complex, time-consuming process, so why settle for one market? Boost your return on investment and future-proof your compound with insight and careful planning from

the team at Charles River. Our global regulatory expertise and fully integrated testing capabilities will help you cost-effectively satisfy the requirements registration authorities around the world.

# Agenda

## Management of Global Pesticide Registration

November 19, 2020(Thursday)

14:00-14:40 (GMT+8)

**Analysis of China Pesticide Import-Export Market and Interpretation of Export Regulations**

Mr. Bingwei Cao  
Institute for the Control of Agrochemicals, Ministry of Agriculture and Rural Affairs, P.R.C

14:40-15:20 (GMT+8)

**Understanding The Latest Developments in China's Pesticide Registration System**

Ms. Rong Yu  
Institute for the Control of Agrochemicals, Ministry of Agriculture and Rural Affairs, P.R.C

15:20-16:00 (GMT+8)

**Quality Control Index and Evaluation Method of Sustained-Release Dosage**

Ms. Pengyue Zhao  
Institute of Plant Protection, Chinese Academy of Agricultural Sciences

16:00-16:40 (GMT+8)

**Market Analysis and Compliance Policy Analysis of Pesticide Industry in China**

Ms. Zhonghua Li  
China Crop Protection Industry Association

[Click here to check full agenda and speakers' profile](#)

## Management of Global Pesticide Registration

 November 20, 2020(Friday)

14:00-14:40 (GMT+8)

**EU Biopesticides Registration**

Mr. Rob Van Drent  
Ctgb

14:40-15:20 (GMT+8)

**Introduction to the Risk Assessment of Plant Protection Products in the European Union**

Dr. Jean Lou Dorne  
European Food Safety Authority

15:20-16:00 (GMT+8)

**Changes to PPP Regulation in Great Britain and Northern Ireland after the Transition Period**

Ms. Rachel Brown  
UK Health and Safety Executive

[Click here to check full agenda and speakers' profile](#)

## Management of Global Pesticide Registration

 November 26, 2020(Thursday)

14:00-14:40 (GMT+8)

### Overview of Requirements for the United States EPA Pesticide Registration

Dr. Guangming Ma  
California Pesticide Administration, USA Senior Pesticide  
Evaluation Expert

14:40-15:20 (GMT+8)

### Pesticide Registration Policy and Market Analysis in Brazil

Mr. Bruno Breitenbach  
Ministry of Agriculture, Livestock and Food Supply

15:20-16:00 (GMT+8)

### Pesticides Registration in Argentina

Mr. Daniel Mazzearella  
Bureau of Agrochemical and Biological Products National Service  
of Agri-Food Health and Quality (SENASA)

Mr. Diego Ciancaglini  
Bureau of Agrochemical and Biological Products National Service  
of Agri-Food Health and Quality (SENASA)

[Click here to check full agenda  
and speakers' profile](#)

## Management of Global Pesticide Registration

 November 27, 2020(Friday)

14:00-14:40 (GMT+8)

**Overview of Thailand's Pesticide Registration Policy Interpretation and Market Strategies**

Ms. Chutima Ratanasatien  
Plant Variety Protection Division of the Department of Agriculture,  
Thailand

14:40-15:20 (GMT+8)

**The Latest Pesticide Registration Policy and Market Analysis in Vietnam**

Dr. Nguyen Truong Thanh  
Ministry of Agriculture and Rural Development, Vietnam

15:20-16:00 (GMT+8)

**The New India Pesticide Registration Policy Interpretation and Risk Assessment**

Dr. Debabrata Kanungo  
Food Safety and Standards Authority of India (FSSAI)

# GPC

Global Product Compliance

*"Achieve your global business vision with us"*

Global Product Compliance (GPC) specializes in Global Regulatory Compliance Solutions across sectors globally. SSS Europe (renamed GPC Europe w.e.f 6th May 2020), a familiar name in chemical regulatory and compliance services now formally belongs under the umbrella of GPC Holding Sweden. Since 2008, we have emerged as one of the leading names among Global Regulatory Compliance service providers with Representation services in Europe, Asia and Middle East for respective chemical regulations. GPC being India's largest regulatory compliance service provider is also actively contributing towards the finalization of India's chemical regulation and policy (Indian Chemical (Management and Safety) Rules (CMSR)).

## SPECIALIZED REGULATORY AREAS

- Indian Chemical (Management and Safety) Rules
- EU-REACH
- Korea-REACH
- Eurasia REACH
- Turkey REACH (KKDIK)
- UK-REACH
- Taiwan Regulation (TCCSCA)
- Chemical Regulations in USA, Canada, Australia, Thailand, China, Japan & Brazil
- Cosmetics Regulation (EU, India, USA)

## SERVICES

- Registrations & Notifications (Pre & Late pre-registration/notification)
- Global Regulatory Compliance & Status Assessment
- Substance & Dossier Evaluation Process Management
- Lead Registration activity & Technical dossier preparation
- Toxicological assessment & Dossier updates
- Contract Study Management & Monitoring
- Compliance Verification & Certificates
- REACH & CLP compliant SDS & Extended SDS (eSDS)
- SDS translations in over 30 languages

- Managed portfolio of **12000+** substances.
- A client base of **1200+** happy clients with **99%** Client Retention (Loyalty)
- Client base: industrial & specialty chemical & petrochemical industry + agro-chemical, food color, cosmetic, electrical & electronics, automotive industry, leather, garment & apparel, plastic & rubber, steel, writing instruments &, polymers.
- Registered **1200+** substances.
- Lead Registration & consortia management of **600+** substances.
- **10000+** pre-registrations and notifications within chemical and cosmetic regulations, globally.
- Translated SDS in **30+** languages with combined authoring of **4200+** REACH & CLP compliant SDSs and **320+** e-SDSs.
- Extensive network of OECD-GLP certified CROs managing toxicological, eco-toxicological, environmental & phys-chem studies.
- Developed compliance certificates management system 'Supply Chain Communication Portal' used by **4000+** users.

## 青岛诺诚化学品安全科技有限公司

Qingdao Nuocheng Chemical Safety Technology Co., Ltd

青岛诺诚化学品安全科技有限公司作为应急管理部化学品登记中心的技术和成果转化窗口，致力于为企业提供HSSE整体解决方案，其咨询服务业务包含：

Qingdao Nuocheng Chemical Safety Technology Co. Ltd. (NUCH), belonging to National Registration Center for Chemicals (NRCC), can provide environment, health, safety regulatory compliance consulting and emergency response service. NUCH is committed to providing customers with excellent products and leading an infinite future with technology. The main services provided include:

为企业 提供  
**HSSE**  
整体解决方案

### 化学品安全与应急数据库 (ChemRight)

Chemical Safety and Emergency response Database (ChemRight)

### 危险化学品合规服务 (登记代理、SDS制作)

# 2020 Recap: Top Industry Updates

## China Enacts Revised Agricultural Standard for Macronutrient Water-soluble Fertilizers (WSF)

[Read More](#)

According to recent reports, in 2020 the number of the macronutrient Water-soluble fertilizers grew to 3600, taking up almost 15% of fertilizers registered with MoARA. and their uneven quality performance became increasingly comparable with China's current agricultural strategy of quality enhancement and agrochemical use reduction.

The original standard, "NY 1107-2010 Water-soluble fertilizer containing nitrogen, phosphorus and potassium" was promulgated as early as 2010. After 10 years of mandatory implementation, some technical indicators have been adjusted, which took effect starting from November 1.

## China Simplified Ex-Ant Procedures for Several Agrochemicals

[Read More](#)

On September 13, 2020, the Chinese State Council issued a resolution regarding the abolishment and decentralization of administrative matters. The registration experimentation of new pesticides and registration of 7 chemical fertilizers will be reduced from pre-event approval to filing formality.

The agriculture sector will develop an online record-filing system specific to the research of new pesticides, facilitating information exchange between enterprises and authorities, while strengthening the designation and supervision on testing facilities. Data collected will be subject to particular scrutiny during the subsequent registration process.

## China's Disinfectant Market to Triple by to 38 Billion Yuan by 2020

[Read More](#)

Disinfection products refer to a type of disease-preventing products that eliminate pathogenic microorganisms and block transmission through chemical, physical and biological methods. The Chinese "Measures for the Control of Disinfection" classifies disinfection products into disinfectant, disinfecting apparatus and sanitary products.

China's disinfectant market has undergone a steady growth from 2015 to 2018 with a CGAR of 5.5% and hold flat during 2019 due to the environmental rectification. The market is resurging owing to the Covid-19 and the market scale is forecasted to grow by 270% to some 38.26 billion Yuan in 2020.

## South Korea to Amend 2 Implementing Rules for K-BPR

[Read More](#)

On August 18, 2020, the Korean Ministry of Environment started a 20-day electronic public hearing on amendments to two implementing rules for the “Act on Safety Management of Consumer Chemical Products and Biocide (K-BPR)”, revised earlier this year. On March 24, 2020, Korea revised this Act, which is due to be enforced starting January 1, 2021.

K-BPR amendments mainly involve requirements on reporting technical changes of consumer chemical products subject to safety verification, minor ministerial adjustment on deadlines for the notification of existing biocidal substances subject to deferred approval requirements (manufacture or import of a biocidal substance without obtaining the approval within the grace period announced by MoE), added clauses concerning principles for the reduction of vertebrate tests, obligation of quality control, special exemption and appointment of local representatives by overseas manufacturers, as well as extended grace period for treated articles from 1 year to 2 years.

## Brazil Approves 21 Me-too Technical Pesticides

[Read More](#)

On July 9th, the Brazilian Ministry of Agriculture, Livestock and Supply (MAPA) released the ministerial Act 39 on the Official Gazette, announcing the registration of 21 technical grade active ingredients including Dicamba, Bifenthrin, Azoxystrobin, Diquat, Cyproconazole, Mesotrione, Tebuconazole, Thiamethoxam and Imidacloprid.

These me-too products are said to have been analyzed and approved by MAPA, IBAMA and ANVISA following the scientific criteria and in line with the best international practices. This move was still criticised by many as it was noted that Dicamba and Bifenthrin have already been banned or are currently under intense scrutiny in the US and EU, as well as the neonicotinoid insecticide thiamethoxam, linked to harmful effects on bees and subject to restriction in other countries.

# 13<sup>th</sup> Chemical Regulatory Annual Conference & Asian Helsinki Chemicals Forum

## CRAC-HCF 2021

Oct 2021 · Hangzhou  
Coming Soon !

# Acknowledgements

## United Nations Environment Programme

The United Nations Environment Programme (UNEP or UN Environment) is responsible for coordinating the UN's environmental activities and assisting developing countries in implementing environmentally sound policies and practices.

UNEP was founded in 1972, following the United Nations Conference on the Human Environment (Stockholm Conference). Its mandate covers a wide range of areas, including the atmosphere, marine and terrestrial ecosystems, environmental governance, and green economic development.

## Organization for Economic Cooperation and Development

The Organisation for Economic Co-operation and Development (OECD) is an intergovernmental economic organisation with 37 member countries, founded in 1961 to stimulate economic progress and world trade. It is a forum of countries describing themselves as committed to democracy and the market economy, providing a platform to compare policy experiences, seek answers to common problems, identify good practices and coordinate domestic and international policies of its members.

## European Chemicals Agency

The European Chemicals Agency is an agency of the European Union which manages the technical and administrative aspects of the implementation of the European Union regulation called Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH). ECHA is the driving force among regulatory authorities in implementing the EU's chemicals legislation. ECHA helps companies to comply with the legislation, advances the safe use of chemicals, provides information on chemicals and addresses chemicals of concern.

## China Petroleum and Chemical Industry Federation

China Petroleum and Chemical Industry Federation (currently the China Petroleum and Chemical Industry Association) is a non-governmental, non-profit voluntary organization consisting of companies, institutes, sectional and local associations in the petroleum and chemical industry. It is the umbrella organization that provides services and implements administrative functions within this industry on the national level.

## China Chemical Safety Association

The China Chemical Safety Association was established in 2006, currently holding 332 members, which include, among others, Sinopec Group, China National Petroleum Corporation, China National Offshore Oil Group Co., Ltd., CHEMCHINA, SINOCHEN GROUP and other large-scale petroleum and chemical enterprises, as well as chlor-alkali, fertilizer, fine chemical industry enterprises. The association is not only a self-regulatory organization of the industry, also holder of a key role as promoter and developer of chemical safety production in China.

## VEGA HUB

VEGAHUB is a freely available platform, which offers tens of QSAR models for many endpoints of environmental and eco-toxicological interest. QSAR models can be used to predict the property of a chemical compound, using information obtained from its structure. In the last years, other tools have been added, for read across and prioritization. These tools can be used in an integrated way.

## China Crop Protection Industry Association

CCPIA (China Crop Protection Industry Association) was founded in April 1982, and it is one of the earliest non-profit organizations in the agrochemical industry in China.

At present, there are 645 members in the association, including producers, researchers, designers, colleges and universities from accross the province, municipalities and autonomous regions involved in the processing and preparation of pesticide active ingredients, intermediates, auxiliaries, packaging materials, packaging machinery and application machinery production, as well as provincial, municipal, and autonomous regional pesticide (industry) associations.

## China Association of Fragrance Flavour and Cosmetic Industries

China Association of Fragrance Flavour and Cosmetic Industries (CAFFCI) was founded on August 21 1984. It is an industrial association at national level with an independent corporation status, approved by the Ministry of Civil Affairs of the People's Republic of China.

At present, CAFFCI, a nonprofit social organization, is comprised of more than 1200 members, most of which are enterprises and institutions involved in the production of raw materials & products, packaging, equipment design & production and R&D of fragrances flavours and cosmetics.

## China Essential Oils, Aromas and Spice Association

China Essential Oils, Aromas and Spice Association (CHINAEASA), founded in 2003, is one of the 43 associations under the China Chamber of Commerce of Import & Export of Foodstuffs, Native Produce and Animal By-Products (CFNA).

As a national professional organization, CHINAEASA is engaged in the coordination and communication of production, processing and trade of essential oils, aroma chemicals and spices in China.

## Association of Pesticide Industry, Shandong Province

The Association of Pesticide Industry, Shandong Province ("APIS"), was founded in 1994, currently joining pesticide production, processes, and management enterprises, farm service organizations, and Shandong pesticide-supporting organizations linked to raw materials, intermediates, additives, packaging materials, packaging and application machinery. APIS currently counts 156 members, all of which play a role in the coordination, servicing and self-regulation of Shandong's pesticide industry, offering also access to exchanges with foreign entities.

## CropLife International

Between 2000 and 2001, the Global Crop Protection Federation (GCPF) grew into CropLife International. CropLife International is a global alliance of the plant science industry, consisting of associations and companies distributed across 91 countries. Its services include pesticides and biotechnology, with the aim of ensuring the safety of agricultural products.

## China Cleaning Industry Association

The China Cleaning Industry Association (CCIA) was established in 1983, a national-level organization with independent legal personality approved by the Ministry of Civil Affairs of the P.R.C.

CCIA is a national, industrial non-profit organization formed by manufacturing enterprises, scientific research, education centers and individuals in the field of disinfectants, surfactants, grease chemicals and other related products.

## Zhejiang Health Products Cosmetics Industry Association

The Zhejiang Health Products Cosmetics Industry Association is a non-profit group organization formed by enterprises and institutions engaged in the production and operation, research and development of health-related products (health food, nutritional food, health supplies, health care equipment, cosmetics, disinfection products, etc.). Members mainly include industry's high-level experts, scientific research institutions, and enterprises from Zhejiang province.

## Chinese Industry Alliance for Antimicrobial Materials & Produces

The Chinese Industry Alliance for Antimicrobial Materials & Produces founded in 2018, is a social organization dedicated to granting policy access, knowledge sharing, academic research and exchanges, technical support, industry research and foreign exchange programmes in the field of new antibacterial materials.

## Public Information Service Platform(s) for Agricultural Cooperation

Established with the purpose of promoting agricultural cooperation at an international scale, the public information service platform was created as a joint initiative between the Overseas Agricultural Research Center of the Chinese Academy of Agricultural Sciences and the Institute of Agricultural Information of the Chinese Academy of Agricultural Sciences. This platform gives full play to the technical support functions of agricultural big data, processing and sharing fast, flexible, timely, professional and authoritative information products for the society, ensuring professional strategic consulting and information services, and supporting the Belt and Road Initiative and the "going out" strategy for the agriculture sector.

## Italy-China Chamber of Commerce

The Italy-China Chamber of Commerce (CCIC) is a private, non-profit organisation recognized by the Ministry of Economic Development and by the Chinese government. It was founded on October 16th, 1970 following the re-establishment of diplomatic relations between Italy and China. Its mission is to support and promote the development of the economic and commercial ties between the two countries.

## Anhui Pesticide Industry Association

The Anhui Pesticide Industry Association was established in November 26, 1995. It is a self-regulatory intermediary organization that coordinates and serves the Anhui Province pesticide industry.

The association currently has 50 members involved pesticide production, scientific research and other enterprises and institutions. Over the years, the Anhui Pesticide Industry Association has played an active role in promoting the sustainable development of the pesticide industry, conducting investigations and studies, and safeguarding the legitimate rights and interests of members and the industry at large.

## CCPIT Sub-Council of Chemical Industry

CCOIC Chemical Industry Chamber of Commerce founded in 1990, CCPIT Sub-Council of Chemical Industry and CCOIC Chemical Industry Chamber of Commerce are branches of CCPIT (China Council for the Promotion of International Trade) and CCOIC (China Chamber of International Commerce). CCPIT CHEM is the national foreign trade and investment promotion organization in the chemical industry, working as a bridge for cooperation initiatives between China's chemical industry and its foreign counterparts. Through business & trade activities, overseas visits and official delegations, as well as exhibitions and conferences both home and abroad, CCPIT CHEM aims to enhance industry dialogues and networking opportunities, promote foreign trade and investment, and deepen the understanding and cooperation between China's chemical industry and foreign counterparts.

## Pesticide Market Information Magazine

The "Pesticide Market Information" magazine is a professional information publication on pesticides, agricultural materials and chemical markets sponsored by the China Pesticide Industry Association. With a large information network and advanced outreach platform, it can sensitively, quickly and accurately deliver information on pesticides, fertilizers, agricultural film, pharmaceutical equipment and related chemical raw materials market, setting up channels for the production, supply, sales, research and trade, for pesticide manufacturers, operating units, scientific research institutes, agricultural technology and plant protection organizations, foreign manufacturers and others. Since its founding in 1986, it has enjoyed wide success in Mainland China. It is also one of the most reliable and influential platform in the pesticide and agricultural materials industries.

## Centro Reach

In 2007 Federchimica, together with other associations, founded the service company Centro Reach Ltd. The mission of Centro Reach is to support chemical companies and users of chemical substances in Italy and in other countries as well as importers of substances from extra-EU countries. More than 100,000 downstream users in numerous sectors are impacted by Reach Regulation and Centro Reach is prepared to help companies applying for REACH.

## Shanghai Association Of Food Contact Materials

Shanghai Association of Food Contact Materials is a voluntary nonprofit organization composed of enterprises and institutions engaged in the production, testing and research of food contact materials in Shanghai. The association aims at offering platforms of information and technical in the field of food contact materials, play the role of assistant and bridge between the government and food contact material manufacturers, to improve technical and quality standards for production safety of food contact material in Shanghai.

## Ningbo Food Contact Materials and Products Industry Association

Ningbo Food Contact Materials and Products Industry Association is a voluntary nonprofit organization composed of enterprises and groups engaged in the food related products in Ningbo. Founded in 2016, the association has more than 90 members, which are covering more than 80% of food contact product processing enterprises in Ningbo, mainly engaged in food contact materials and food products.

## Xinhua News Agency

New China News Agency is the official state-run press agency of the People's Republic of China.
